

MORE ABOUT YOUR SEWER USE QUESTIONNAIRE

Introduction

In accordance with State and Federal requirements, the Sacramento Regional County Sanitation District (SRCSD) has a "Pretreatment Program" to regulate commercial and industrial wastes discharged to the sewer system.

Under this program, SRCSD is required to maintain a current listing of commercial and industrial users of the sewer system and to determine which of these users are required to have a wastewater discharge permit. The Sewer Use Questionnaire gives SRCSD preliminary information to make this evaluation.

Who Must Complete The Questionnaire?

Most commercial and industrial businesses connected to the sewer system must have a current and accurate questionnaire on file with SRCSD.

Questionnaire Processing

After your questionnaire is received and reviewed by the District, we will take one of the following actions:

- Send you notification that your questionnaire has been accepted and no Wastewater Discharge Permit is necessary.
- In some cases, SRCSD may accept your questionnaire without further notification (*no news is good news!*).
- Request further information necessary to evaluate the questionnaire. This may include a request for completion of a Wastewater Discharge Permit application.

All questionnaires received by SRCSD will be kept on file for at least three years.

For Further Information

For help with filling out this questionnaire or other information about SRCSD's Pretreatment Program call the Wastewater Source Control Section at **(916) 875-6470**.
